Schedule B: Integrated GIS Modules

Service Modules:

- 1) The following **Municipal Management Service Modules** are included in the SLIMS contract.
 - i. **Assessment Information Management System** (Provincial AIMS)
Integration of Provincial Assessment information data fields as defined in CGIS' feature definition specification. CGIS will download from the municipal data server and integrate into GIS on a quarterly basis.
 - ii. **GIS Technician and Development Services**
CGIS Staff will review any request for additional data sets to be integrated into Corporation GIS and will provide firm quotes, up front, to perform creation, conversion, and integration or maintenance services.
Quotes will be based on the nature of the request with consideration for time and urgency and are guided by the current established hourly rate for CGIS Services:
 - a) GIS Technician Services (service rates detailed in Schedule C)
 - b) Development Services (service rates detailed in Schedule C)
 - iii. **Imagery Service**
Raster Data (e.g. Aerial or Satellite Imagery) added to SLIMS. Files provided by the client must be orthorectified or Georeferenced. The preferred format for files is tiled ECW or GeoTIFF.
The cost for the service is detailed in Schedule C.
Please note that orthorectified or Georeferenced imagery can reveal alignment issues with the parcel fabric or other vector layers. Correction of these alignment issues is possible, however is not included in the monthly Aerial Imagery Service.
- 2) The following **Additional Municipal Service Modules** are also included in the SLIMS contract and are delivered at an additional fee. (See also Schedule C)

Selection Editor enables authorized users to edit specific Corporation datasets directly in the GIS. The Corporation will detail the following, in writing:
 - a) which datasets become editable;
 - b) which users have access to data;
 - c) whether user access is read-only or read/write to edit the datasets.
Configuration will be subject to final approval from CGIS as some datasets, such as the assessment dataset, are not able to be setup for editing in the GIS.
- 3) The Corporation may, with the consent of CGIS at any time following the execution of this agreement and the commencement of the associated services, delete, increase, extend, vary or otherwise alter the Module services associated with this agreement provided such changes are agreed to in writing by both parties.
